

The Perfect Flight!

As pilots we endeavor to make every flight a "Perfect Flight"; but it doesn't always happen. Why not? Because many pilots have forgotten their initial training. That's when they were taught that every "Perfect Flight" begins on the ground long before ever boarding the aircraft. The "Perfect Flight" is the culmination of proper preflight action and planning, aeronautical decision making, weather theory and planning, airspace review and the application of surface safety strategies. If every pilot would follow the simple steps outlined in this unique safety seminar, they would always enjoy a "Perfect Flight"! Don't miss this special briefing; click on the link below and register TODAY!

Directions: Williston Road Westbound, turn on to Valley Road, turn left at the end and proceed to the yellow building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
